

**Fiber Optic Smart Structures And Skins V: 8-9
September 1992 Boston, Massachusetts (Proceedings Of
Spie) By Richard O. Claus**

By Richard O. Claus

Jul 27, 2015 fiber-optic strain sensors, smart structures. I. INTRODUCTION FIBER-OPTIC sensors are becoming important tools in material and structural testing.

Fiber optic sensors can be embedded into composite material used for a wide variety of lightweight structures supporting aircraft, spacecraft, automobiles and boats.

Pioneers in this important new field contribute articles on the technologies and applications of fiber optic smart structures. Coverage includes the problem of
