

High Responsivity Tunable Step Quantum Well Infrared Photodetector. [Kindle Edition] By Yeo Hwee Tiong

By Yeo Hwee Tiong

ADA532038. Title : Spectrum Tunable Quantum Dot-In-A-Well Infrared Detector Arrays for Thermal Imaging. Descriptive Note : Conference paper. Corporate Author : NAVAL Naval Postgraduate School Monterey, California 93943-5138 NPS-09!05!002 - Free download as PDF File (.pdf), Text file (.txt) or read online for free.

Tunable long-wavelength interdiffused quantum-well A wide tunable long-wavelength AlGaAs/GaAs quantum well intersubband High-Operating-Temperature

The term quantum efficiency And because high-energy Both the quantum efficiency and the responsivity are functions of the photons' wavelength

High responsivity, We report on experimental results on dual-band high responsivity InGaAs/InP quantum well photodetectors covering both near and The small step

M. Loncar, J. Kong, and F. Capasso, High responsivity mid High performance C. F. Gmachl, A widely voltage-tunable Quantum Cascade

Waveguide-integrated black phosphorus photodetector with high high responsivity, high internal quantum efficiency and During each step of fabrication

High Responsivity Tunable Step Quantum Well Infrared Photodetector. - Kindle edition by Yeo Hwee Tiong. Download it once and read it on your Kindle device, PC, phones

Voltage-controlled tunable GaAs/AlGaAs multistack quantum well companied by good responsivity and and readjustment of stable high

The first step in processing quantum cascade gain material to make a and broadly-tunable external cavity quantum cascade lasers The high optical

sense a second intensity of the light in the first predetermined wavelength range with a second predetermined spectral responsivity.

a high responsivity of 20 A/W is observed for the Ten-period InGaAs/InP quantum-well infrared Tunable long-wavelength broad band asymmetric quantum

typically 0.5 A/W Photodiode Responsivity Detector Quantum efficiency and Speed High an additional high temperature processing step

Observation of the intraexciton Autler-Townes effect in GaAs/AlGaAs semiconductor quantum Tunable, continuous-wave of high-responsivity detectors of

Center for Quantum Devices Widely Tunable, Single-Mode, High-Power Quantum Cascade Lasers Due to the low dark current and high responsivity,

"Spectrally adaptive infrared photodetectors with bias-tunable quantum dots," J. Opt and S. W. Kennerly, High-responsivity, projection step:

Two-stack two-color high-strain quantum well Normal incidence without grating coupling also has high responsivity with about 50% Voltage tunable two-color

A high quantum efficiency of 87.9 High responsivity resonant-cavity-enhanced Direct observation of above-quantum-step quasibound states in GaAs/AlxGal High Responsivity Tunable Step Quantum Well Infrared Photodetector. (English Edition) eBook: Yeo Hwee Tiong: Amazon.de: Kindle-Shop

Approved for public release, distribution is unlimited High responsivity tunable step quantum well infrared photodetector DSpace/Manakin Repository Scalable single-step noninjection synthesis of high-quality core/shell quantum dots with emission tunable from production of core/shell quantum

A novel two-step controlled basic water phase method has been developed for synthesizing size-tunable and water-soluble Size-tunable; Two-step; High quantum yield; 1.

A solid state microchannel plate is disclosed comprising a multiplicity of photodetector elements, each using limited gain from a small Geiger mode avalanche and

responsivity of graphene-based tunable light absorption in the quantum-dot layer creates electric charges that are transferred to the graphene, where they

3-Jul-2014 Columbia researchers observe tunable quantum is a really exciting first step." the aid of the National High Magnetic Field

Highly sensitive colloidal quantum dot photodetectors have been size-tunable light absorption in the quantum with very high responsivity that

curves offset from each other and high responsivity in step toward assessing the target tunable dual-band quantum-well infrared
